

Peanut Power QRP Sprint

Sponsored by the North Georgia QRP Club

www.nogaqrp.org

Date: Sept. 25, 2016. **Time:** 2000Z to 2200Z – later in the day to catch west coast stations.

Object: Work as many Peanut Power numbers as possible on the 40, 20 and 15M bands.

Peanut Numbers: May work anyone. Others – work only those with Peanut Numbers.

Peanut Power Numbers: Get your number from pete@nogaqrp.org After August 1, 2016.

Suggested Call – Either CQ QRP (or CQ NUT for those with a PP number)

Exchange Peanut Power Number Stations – RST, S/P/C, Peanut Number.

Non Peanut Power Number Stations – RST, S/P/C, Output Power.

Mode – CW, SSB

Power – See Categories

Scoring – Working a Peanut Station – 7 points

Working a non-Peanut Station – 3 points

S/P/C State/Province/DX

"Peanut Pete"

Total Score equals the **total QSO points** times the number of **S/P/Cs** worked on all bands or modes (the same stations may be worked on multiple bands/modes for QSO points and S/P/C credit). There is not a multiplier for different classes or power, simply different categories. Enter in the category that applies. Maximum power for any band/mode determines your category for the entire contest.

Categories

Goober – 1w (2w PEP SSB) output power or less – **Portable** – This is the **Prestige** Peanut Power Class!

Salted – 5w (10w PEP SSB) output power or less - **Portable**

Boiled – 1w (2w PEP SSB) output power or less – **Home Station**

Roasted – 5w (10w PEP SSB) output power or less – **Home Station**

Raw – **Over 5w** (over 10w PEP SSB) output power – **Home or Portable**

There is no theme nor hiking required. If you are at home on home antennas, you are a home station. If you are Portable (outside on a temporary antenna), you are portable, even on your own property. You may request a Peanut Number for use in any category.

Focus – In order to promote a focus of activity, we recommend the following frequencies. Up from 7061, 14061 and 21061 for CW and 7285, 14285 and 21285 for SSB. The length of this sprint is only 2 hours and score may be maximized by working all 3 bands and both modes.

Logging – The Peanut Power Sprint is supported by **W3KM's 'GenLog'** logging program. Use the latest version **v8.13 (or later)**.

Entry – Send your score, including QSO Points & Multiplier via email to pete@nogaqrp.org by Oct. 15, 2016. You can calculate your score from the Peanut Power Web Site. **All of this information can be sent via the Peanut Power Sprint pages of www.nogaqrp.org.**

Awards - Plaques will be awarded to category winners. Logs should **NOT** be submitted with your entry but category winners will be asked to submit full logs for checking.

The North Georgia QRP Club caters to QRPers in the Atlanta/north Georgia area with 150 members. We regularly have 30 people at our meetings the second Saturday of the month and have a website – nogaqrp.org. NoGa is a no dues, no officer, no rules and no formality club – Just FUN with QRP.
